

people including 6,000,000 Jews in their “final solution,” but America’s killing fields called abortion clinics, have exterminated more than five times that many since that day of infamy, January 22, 1973.

Not only so, but on June 25, 2015, the same court, just different judges, ruled that two of the same gender could marry. A so—called “marriage” between two of the same gender no more makes a marriage, than calling a cow’s tail a leg makes it a leg. Both these decisions illustrate the anti-Christ movement in our country that the Supreme Court and others are perpetuating. Satan hates God and the human race that He created. If you know your Bible history you know that one of the major reasons that God had the Babylonians destroy Jerusalem (586 B.C.) is because they burnt their babies in the fire; even as it is written, *“And they have built the high places of Tophet, which is in the Valley of the Son of Hinnom, to burn their sons and their daughters in the fire..”* (Jeremiah 7:31). After the staff in the abattoirs here in the U.S. have cut, ripped and slashed the little ones to death and extracted “salable parts” they cremate them.

One matron from an abattoir said she wanted to sell enough baby parts to buy a Lamborghini. I checked the internet and found a number for sale, one company in Dallas, TX had a yellow one with 460 miles on it for \$499,999.00. Wonder how many parts of the wee little ones, would they have to sell to buy the yellow Lamborghini? God forbid! Another reason God destroyed Jerusalem is that its religious leaders led in the ungodliness as it is written, *“They commit adultery and walk in lies; They also strengthen the hands of evildoers, So that no one turns back from his wickedness. All of them are like Sodom to Me, And her inhabitants like Gomorrah”* (Jeremiah 23:14). Besides the above tracts we have others including one published by brother Elkins dealing with the ungodliness of homosexuality and the great consequences that it brings on those who practice it. Let us send you a hundred or so of these to pass out. I know that it is not politically correct to do so, but it is high time that we followed the order that God gave to Isaiah, *“Cry aloud, spare not; Lift up your voice like a trumpet; Tell My people their transgression, And the house of Jacob their sins”* (Isaiah 58:1).

Beloved friends and fellow laborers unto eternal life, I will continue to push world evangelism, but I am not blind to see that the destruction of the moral system in this our beloved home land will undermine the platform for such. I pray for America to repent and I pray that we as New Testament Christians, will have the boldness to call our country to repentance as Jonah did Nineveh.

In Christian love,

Jim E. Waldron

P.S. Help needed! For some time we have been mailing small bundles of the Newsletter to congregations that support the work. One brother wrote asking for 25, another wrote of having copies made, which he then distributed to encourage people to help. The work has grown so rapidly that we need to have more involved. If you would like a half dozen or so that you could use to tell others about the work, let us know and we will send you some. It is a lot cheaper for us to have them printed in color, than it would be for you.

No. 9

NEEDED, GOSPEL PREACHERS WHO ARE FARMERS OR AVID GARDNERS

When Laura and I went with the family to Pakistan in 1967, I observed that they were still cutting wheat with a sickle and walking oxen over the straw to thrash out the grain, as had been done in Asia since the time of David (Psalm 1:4); no, even before. They were cutting rice the same way. The Indian farmers were also cutting both crops in that manner. Most of the land was/is owned by wealthy (“zimindars”) landowners, and those who actually do the farming, called (“coolies”) laborers, are tenants. Most often, then and now, they are paid not in money, but a share of the wheat or rice which the farm is growing.

Once I said to a farmer (sharecropper), “I know you get a share of the wheat crop that you use for making bread (chapatti, like pita bread) for your family throughout the year, but how much cash do you have in hand in a year?” His answer was in rupees and the amount came out to be about one dollar a day during the year. Due to these circumstances I determined when we returned to the U.S. in June of 1970, to enroll in the University of Tennessee and there studied Agriculture Extension Education in order that I might have some knowledge to encourage improved agriculture practices. I completed the course and was to receive my diploma in August 1971, but was not able to go through the ceremony as we were on our way back to Pakistan. The diploma came by mail.

Leaping forward till today, my main work has been in India over the last thirty years. Concerning agriculture work in that country, when we opened the school of preaching at Dindigul, Tamil Nadu (S. India -1989) we later (1995) acquired seven acres of farm land. Over ninety percent of the students were un-skilled farm laborers, thus we bought a tractor and helped them to learn improved agriculture methods. The class schedule was 4.5 hours a day in Bible class and three hours growing crops for the schools in the afternoons. I say schools because when we produced, for example, a large corn crop we would fill a truck and share it with other schools.

Going back to the part about crops being cut with hand sickles and thrashed by having oxen walk over the straw; that is rapidly disappearing in India, for tractors are quickly replacing oxen to plow the fields and Kansas type combines are used to cut the rice and wheat; and to thrash it. This has thrown great numbers out of work in the farm sector. Many just move to the cities like Mumbai (21,000,000) and live in squalor, while eking out an existence.

While in India this last trip (July 11 through September 11) we bought the small tractor seen in this picture for the school in Mirza, Assam, NE India. This is the English medium school and we have for a number of years been teaching them to grow a garden as well as broilers. The need is 75 broilers a month to supply chicken twice a week in the school kitchen. I also wrote

last month, that we needed ninety dozen eggs (that is an egg a day per student) a month, but counting the entrance of new students and the children of staff members; it turns out we need 117 dozen per month or 1,404 eggs. Just as a start last week, after I left to return to the States, the brothers bought fifty, two-day old layer chicks; since it takes almost six months for a pullet to be old enough to lay eggs, we have a while to wait.

Re: the tractor, as you may see it is a small one and was bought not only to use for the field, but with it we can give students practice at driving it; therefore helping them to learn a useful skill that gives them a better chance of landing a good paying job. To this end we have leased some land and a pond. In the pond we plan to grow fish. There is a great need to give them employable skills in the agriculture sector, for in India *"Agriculture, dairy, horticulture and related occupations alone employ 52 percent of labour ..."* (Bing, Labour in India). The country has 1.3 billion people.

The reason for writing the above title: NEEDED, GOSPEL PREACHERS WHO ARE FARMERS OR AVID GARDNERS, is because I am not only at the point of nearing my 81st birthday, but am as busy as a one armed paper hanger with the various schools and am not free to spend six to eight months at a time in Mirza to give the students the training they need. Thus it would be good to get one or more sound gospel preachers who could teach Bible classes, but also teach gardening. It would be good to have husband/wife teams, because a Christian wife could teach women's classes and coach the young sisters on how to be true help meets for their husbands and *"manage the house"* (1 Timothy 5:14). One or two couples, could jointly work on the field or alternate with each other throughout the year. Those between 62 and 72, or older would fit in well if their health permitted. Speaking of that, health treatment in India is excellent and very affordable. Contact me at jimewaldron@hotmail.com

HOME AND SCHOOL FOR THE BLIND AND DEAF EXPANSION

In the July Newsletter I wrote about this school and home for the blind and deaf, which was begun 23 years ago by brother K. Shunmugam. As was noted he

passed from this life in May 2014. The work is being carried on by his widow, Elizabeth, and her son-in-law, Nelson Masilamani (Peter Wilson's brother). Also mention was made of the fact just this past summer Elizabeth by persistence had gotten government recognition for the school. The picture shows a pit being dug for one of the pillars.

The new building is to double our space for more students and to provide three apartments for staff. They will be small, about 600 square feet each, but are long overdue as the teachers have lived off campus in even smaller space or in cramped quarters on the school grounds. It will contain two floors, which will include a total of 4016.25 square feet. Both floors will be poured concrete and the walls will be built of cement blocks, which will be stucco-ed. The cost \$114,463.13, which is based on \$28.50 per square foot, which is about \$100.00 less per square foot than what would be paid in the States. Please help as you are able. We are thankful for those who have already committed funds toward the completion of this project.

WHAT GOOD IS IT TO WIN SOULS ABROAD AND LOSE THE FIGHT FOR THE FAITH HERE?

Everyone can use tracts to refute the error that is creeping into the churches. For example some churches are mimicking the digressives of the 1800's, who fell in love with machinery to make music in the churches and went whole hog into digression. Two months ago I told you of a sermon by H. Leo Boles that he preached by invitation to a Christian Church Convention, May 3, 1939, in which he explained, if they wanted to be in fellowship with the churches of Christ it would be necessary for them to repent of innovations, which had been added to the worship and work of the church. At the time I said we had some tracts on Boles' sermon, but when some of you wrote asking for copies they could not be found. Thus I am apologizing and saying, we now have hundreds of them. It would be good for you to order a goodly number and pass them along to others. In fact we will supply enough for all the families in your congregation if you desire. Write to me at, P.O. Box 258, Crossville, TN 38557. No charge; you may pay the postage if you desire.

There are so-called progressives among us who would cause every congregation to go into apostasy, if they could. Such is the work of the devil. Handing someone a good tract is a good start; Actually, though, tracts do little good as long as they sit in the tract rack, put some in your pocket or purse or if you drive a pickup put some on the seat or the glove compartment and ask people may I give you a tract. Most will take it, but if they refuse, then when you see them in judgment you will know at least you tried.

Here are other tracts (order from P.O. Box 258, Crossville, TN 38557) that we want

to get into the hands of those of you who have the grit to distribute them; 1) The Seventh Day Adventist Church claims that "Sunday" was brought in by the Roman Catholic pope to replace the Sabbath during the dark ages and that the Sabbath is still binding. In the face of this malicious attack on the truth that the first day of the week is the Lord's day and the special day of worship around the Lord's table (Acts 20:7), we have reprinted the tract by brother A.G. Hobbs, *"IS THE SABBATH BINDING TODAY?"* Write for as many copies of these as you can/ will use in order to teach the truth; 2) I had been preaching for over fifty years before I ever heard of a gospel preacher say we may pray to Jesus just as we do to the Father, but such a doctrine has for about the last ten years fostered division in the body. Jon Gary Williams of Laverne, TN has exposed the duplicity of such a doctrine in a new tract. You may order a dozen, a hundred or so. We want to get them out; 3) The anti-Christ movement to kill as many babies in the form of abortion is alive and well in this nation (see below), and we are ready to arm you with tracts to fight this massacre of unborn children. Get these tracts into the hands of your young people and make them passionate defenders of the right to life. Fill your pockets and pass them out every where.

"BAN RELIGIOUS FREEDOM, ENFORCE GAY RIGHTS" ANOTHER ASSAULT ON THE FAITH GORDON JAMES KLINGENSCHMITT, PhD: Thursday, September 8, 2016: *"President Obama's Chairman of the "U.S. Commission on Civil Rights (USCCR), said that 'religious freedom' and 'religious liberty' have become merely 'code words' for intolerance, 'Christian supremacy' and committing every form of identity-politics sin, and thus they (Christian liberties) must yield before anti-discrimination laws," reports The Washington Times. (c 2016 The Washington Times, LLC.). "The remarks, released Thursday in a report on 'Peaceful Co-existence: Reconciling Nondiscrimination Principles with Civil Liberties,' is the latest example of an increasingly hostile reception in liberal circles to one of the six specified rights at the core of the First Amendment — the 'free exercise' of religion.*

The chairman of the USCCR also said, "The phrases 'religious liberty' and 'religious freedom' will stand for nothing except hypocrisy so long as they remain code words for discrimination, intolerance, racism, sexism, homophobia, Islamophobia, Christian supremacy or any form of intolerance," said Martin R. Castro, a Chicago Democrat named USCCR chairman by President Obama in 2011. ("Chaplain Gordon James Klingenschmitt, PhD, PO Box 77077, Colorado Springs, CO 80970).

This is blatant evidence that there are forces in Washington that are determined to destroy the freedom to practice and preach what the Bible says. There are courts and politicians that are working for Satan, who would eradicate godliness, morality and the church of Christ from, not only the United States, but from the whole earth. The agenda of the devil is being put forth by amoral judges, corrupt politicians and compromising\mealy mouth preachers in the land. As you are well aware on January 22, 1973, the United States Supreme Court ruled that a woman had the right to slaughter her own baby in the womb and to date 58,586,256 have been exterminated like they were so much vermin. If you check the internet you will find that Hitler's Third Reich killed only 11,000,000
